

## **Kumi Action: Encourage Israel to Come Clean about Nuclear Weapons**

Israel has nuclear weapons, but the world is in denial. We want to help change this by designing nuclear hazard signs and giving them to Israel! Send your sign to Israel's embassy in your country along with the message, “We know you have nuclear weapons. We donate this sign to you!”

Take a photo of your nuclear sign and post it to social media. Include a link to this page of the Kumi Now website along with the hashtags #KumiNow and #Kumi26.

<https://kuminow.com/nuclearisrael/#kumiaction>

Links to find the address of the Israeli embassy in your country will be shared in chat and on the webpage.

## **Additional action: Add Your Prayers and Wishes to the Flame of Hope**

Experience the Flame of Hope with its warm and peaceful mind.

Share your wish and prayer to the world.

Add your prayer silently or write a note into the chat.

The Hiroshima fire of the nuclear bomb which has been burning continuously since 1945 was brought to Pope Francis by Earth Caravan in 2019. He blew out the embers of the atomic bomb as a symbolic act for the abolition of nuclear weapons and all weapons. From that act the vision of the Flame of Hope was born. Since then holy fires from all over the world have been unified.
